

NOMAN RAFIQUE

AI ENGINEER — BACKEND SYSTEMS · MULTI-AGENT ARCHITECTURES · LOCAL LLM

Multan, Pakistan • nomanrafique.official@gmail.com • +92 346 3806254 • github.com/NomanRafique01 • linkedin.com/in/noman-rafique-5892ab398

PROFESSIONAL SUMMARY

I'm an AI Engineering student who likes spotting gaps in everyday tools and building free, open-source fixes for them. Over the past year I've built privacy-first, offline AI assistants and multi-agent systems, because I believe useful AI shouldn't need a subscription or your personal data to work. Currently looking for an internship where I can keep building things people actually use.

EDUCATION

BS Artificial Intelligence — NFC Institute of Engineering & Technology, Multan *CGPA: 4.0 / 4.0 · 3rd Semester (Pursuing)*
FSc — Higher Secondary Education *Marks: 1045 / 1100 · 95%*
Matriculation — Secondary School Certificate *Marks: 1064 / 1100 · 96.7%*

PROFESSIONAL EXPERIENCE

Back-End AI Engineering Intern — FlyRank AI (FlyRank Corp.) *Jul 1 – Sep 15, 2026 · Remote*

- Completed 159+ hours of applied training across API contracts, task design & prompting, retrieval & grounding, and evaluation & operations.
- Capstone project “LLM Usage Metering & Billing Service” reviewed and accepted by the lead track mentor, drawing on 29 program meetings, 20 learning resources, and 20 verified Anthropic Academy courses.
- Recognized for excellence in technical competency, professional conduct, and collaboration.
- Awarded a completion certificate (ID: FR-D11-7D70E-451AB) and a recommendation letter signed by Alen Malkoc, Founder & CEO of FlyRank.ai.

PROJECTS

Trimslate — Browser Tool That Shrinks Files for AI Chat *2026*
Personal / Open-Source · Completed · github.com/NomanRafique01/Trimslate

A free Chrome extension that automatically compresses documents before you upload them to Claude.ai, so you can fit far more into a conversation and get more out of every AI chat.

- Shrinks PDF, Word, Excel, and PowerPoint files by up to 80% before they reach the AI, without losing any of the actual content.
- Runs quietly in the background so it never freezes or slows down the browser, even with large files.
- Processes everything on the user's own computer, so files are never uploaded to an outside server.

Built with: JS ES6+, Chrome MV3, Offscreen API, Service Workers, PDF.js, Mammoth.js, SheetJS, DecompressionStream, Tesseract.js

ToolCEO — All-in-One Offline File Conversion App (172 Tools) *2026*
Personal · Completed · github.com/NomanRafique01/ToolCEO

A desktop app with over 170 tools for converting and editing PDFs, images, eBooks, and documents — built to work completely offline, with no subscription and no need to upload files anywhere.

- Brings several well-known offline tools together into one simple app, so people can convert, merge, and edit files without installing separate software.
- Shows real-time progress for every job and lets users cancel at any time.
- Reads a PDF's actual layout so it can turn it into a clean, readable eBook instead of a messy copy.

Built with: Python, FastAPI, Electron, PyMuPDF, Pillow, pikepdf, Tesseract OCR, LibreOffice, Pandoc, Calibre, PyInstaller

Nexa — Private AI Assistant That Works Without the Internet *2026*
Personal · Completed · github.com/NomanRafique01/Nexa-Offline-AI

A personal AI assistant that runs entirely on your own computer instead of the cloud, so you can chat with it, show it pictures, and even talk to it out loud — all without your data ever leaving your device.

- Runs a full AI chatbot and image-understanding assistant completely offline, with no data sent anywhere.
- Lets users talk to it and hear it talk back, using on-device speech recognition and natural-sounding voice replies.
- Includes an offline translator and a safe space to run code, all inside the same app.

Built with: Python, FastAPI, React 18, Electron, Ollama (Phi-3/Mistral/Gemma), Moondream, Vosk STT, Piper TTS, Argos, Pyodide/WASM, SQLite

Zyron — Mobile App Where a Team of AI Assistants Work Together

2026

Personal · Completed · github.com/NomanRafique01/Zyron

An Android app that uses a team of AI assistants instead of just one — each with a different job, like researching, writing, or double-checking — so answers come out more accurate than asking a single AI.

- Splits every question between several AI specialists who research, write, and check each other's work before giving a final answer.
- Automatically switches to a backup, on-device AI if the internet or cloud service ever goes down, with no interruption.
- Supports real, hands-free spoken conversations, including natural interruptions, and keeps personal AI keys locked behind fingerprint or face unlock.

Built with: React Native, Expo, Python 3.11, FastAPI, LangGraph, LangChain, Pydantic v2, SQLite, Docker, Railway, Tavily/Serper APIs

CERTIFICATIONS (25+)

All certificates: github.com/NomanRafique01/My_Certificates_and_Resume

- AI and Career Empowerment — University of Maryland, R.H. Smith School of Business (Coursera) · Jun 2025
- OpenAI GPTs: Creating Your Own Custom AI Assistants — Vanderbilt University (Coursera) · Jun 2025
- Ethics of Artificial Intelligence — Politecnico di Milano (Coursera) · Jun 2025
- Make Agentic AI Work for You — IBM SkillsBuild · 2025

Anthropic Claude Academy (20+): AI Capabilities & Limitations · AI Fluency (Framework, Builders, Educators, Non-profits, SMBs, Students, Teaching) · Build with Claude API · Claude 101 · Claude Code 101 · Claude Code in Action · Claude on Google Cloud · Claude Platform 101 · Claude with Amazon Bedrock · Intro to Agent Skills · Intro to Claude Cowork · Intro to MCP · Intro to Subagents · MCP: Advanced Topics

TECHNICAL SKILLS

Languages: Python, Java, C++ (Learning)

AI/ML Libraries: LangChain, LangGraph, Ollama (Phi-3/Mistral/Gemma), Moondream, NumPy, Pandas (Learning), Matplotlib, PDF.js, Mammoth.js, SheetJS, Tesseract.js, PyMuPDF, Pillow, pikepdf, Vosk STT, Piper TTS, Argos, Pyodide

Frameworks: FastAPI, React 18, React Native, Expo, Electron, Uvicorn, SQLAlchemy

DevOps & Tools: Docker, Railway, Git, GitHub, VS Code, PyInstaller, Electron Builder, Inno Setup, LibreOffice, Pandoc, Calibre

Databases: SQLite

EXTRACURRICULAR ACTIVITIES

1st Position — NUML Inter-Colleges Quiz Competition

Feb 2023

Represented KIPS College at the NUML Multan Campus in a national-level competition; awarded by Brig. Asad Raza (R), Director, NUML.

LANGUAGES

Urdu — Native • **English** — Professional Working Proficiency
